

# Securely Add Video Into Your Digital Workplace

USE VBRICK VIDEO ON DEMAND TO GET EVEN MORE FROM YOUR SERVICENOW INVESTMENT

ServiceNow® is a powerful platform for automating processes, reducing costs, and improving employee experiences. Add relevant video content to your pages and portals and watch those benefits grow exponentially.

## A SECURE VAULT FOR EMBEDDING INTELLIGENT VIDEO IN SERVICENOW

Vbrick, the leading enterprise video platform provider, is trusted by the world's largest brands to meet their end-to-end video needs. We bring our years of experience in managing and safeguarding corporate video content to ServiceNow by offering Vbrick Video on Demand. It's an AI-driven, on-demand video platform that lets you create and store videos in one secure, consolidated library and easily embed them in ServiceNow portals or pages for users throughout the enterprise.

**Engage and inform large, global audiences at scale.** HR, corporate communications, and IT teams can securely embed videos within their ServiceNow pages or portals to improve knowledge sharing.

**Increase productivity and employee experiences.** Deliver valuable and timely content – enriched with industry-leading AI capabilities such as transcription, translation, summaries, and a video assistant – directly within familiar experiences.

**Enhance self-service initiatives.** Minimize ticket submissions and optimize resources by embedding video on the pages people regularly visit for information.

**Automate video capture.** Users can easily upload or create new videos with native webcam and screenshare capabilities – all protected by strict security policies.

**Meet compliance and regulatory requirements.** Maintain video-based data confidentiality, integrity, and availability by establishing viewer roles and permissions and defining governance rules to automatically manage content so the right messages are seen by the right people, at the right time (and for the right duration).

**Simplify video analytics.** Surface and track powerful video insights, including video viewing details, on a single platform.
