

The success of your enterprise video platform deployment is dependent on the expertise of the individuals charged with using, maintaining, and administering the application. Vbrick Training Services will train and mentor your staff to ensure they have the knowledge and skills to succeed with online video and to meet your business requirements and objectives.

As part of Vbrick's commitment to help you succeed with online video, we provide training courses and materials for your team to use at their convenience.

- ▶ eLearning Modules
- ▶ Job Aids
- ▶ Lunch-N-Learns
- ▶ Knowledge Transfer
- ▶ Best Practices Workshop
- ▶ Product Training for New Features
- ▶ High Level Product Training
- ▶ Partner Training
- ▶ Focused Training for New Features

Who Should Sign Up

Anyone creating video or needing to conduct live events within your enterprise will benefit from Vbrick's Training. Departments such as Corporate Communications, Human Resources, Training, Marketing, and Sales should know how best to utilize the platform and take advantage of the tools. All these groups will be able to conduct live events, capture video, store videos securely and share videos with colleagues after going through the training material. Members of the IT staff, also, should take the courses so that they can administer and manage the product.

ON DEMAND

Our courses can be available from the convenience of any device and can be viewed at any time.

STORYTELLING AND ROLE BASED LEARNING

We use the power of storytelling so that your colleagues can follow characters and become engaged in each role. This has proven to be one of the most effective ways to train employees.

LEARN FROM THE BEST

Our training material and content is developed by experts in video implementation and adoption.

Vbrick training enables:

- ▶ *Better adoption*
- ▶ *Improved collaboration*
- ▶ *Expanded use throughout the enterprise*
