

Take Your Digital Signage Further With Video

REIMAGINE THE WAY YOU CONNECT WITH YOUR WORKFORCE WITH APPSPACE AND VBRICK

Turn every screen in your workplace into a dynamic hub for video-powered engagement. With Vbrick and Appspace, your stored videos flow onto digital signs, video walls, collaboration displays, and kiosks, making every space pop to engage and excite employees and visitors alike. Whether they're working in the office, operating your facilities, or walking through campus, connecting with your audience has never been easier.

Go beyond static digital signage by adding video to create memorable experiences everywhere.

Corporate Communications. Live broadcast crucial, strategic visions and messages from the leadership team to every corner of your company.

Financial Services. Stream live market data, financial news, and investment insights in client areas to keep them informed and confident in their financial decisions.

Manufacturing. Display safety protocols, critical and time sensitive updates, or training videos, ensuring your workforce stays informed, engaged, and protected.

Law Firms. Use digital signage in reception and conference rooms to highlight your firm's expertise, notable cases, and client testimonials, building trust and credibility.

Healthcare. Enhance patient experience by providing valuable information in waiting rooms and common areas to display educational health tips, wellness programs, and facility updates.

Education. Keep campuses connected with welcome messages, promote upcoming events and programs, aid recruitment efforts, highlight community partnerships and opportunities, and broadcast emergency alerts.

HOW IT WORKS

No need for complex setups or configurations. With Appspace and Vbrick, getting started is a breeze.

1. Sign in to Vbrick and Appspace.
2. Take the embed code for your video, channel, or playlist from Vbrick and place it in the Vbrick Appspace Connector Service. Choose your settings and permissions.
3. Copy and paste the code into any HTML webpage card within Appspace.
4. Select where you want your videos to go and publish to make your videos visible!

TRANSFORM YOUR DISPLAYS WITH VBRICK

Store all your company's videos in Vbrick to manage them centrally and easily embed them into any application, including Appspace:

Simplify your video management with a powerful, centralized CMS. No more juggling between multiple video platforms. Access and display your videos from a single, unified source.

Gain complete control and oversight. Easily manage video permissions and publish the right messages at the corporate or local level to individual screens, groups, or everywhere at once. Never worry about displaying incorrect, proprietary, or archived content again.

Set it and forget it using your existing video. There is no need for content subscriptions. Access your current video assets to display company-specific messages and create channels or dynamic playlists for high-traffic areas.

Amplify your message with crystal-clear clarity and extensive reach. Experience unparalleled scalability and reliability when you display your videos with Vbrick Universal eCDN, the most versatile video delivery architecture available today.

Enhance communication with high-quality, uninterrupted live streams. Broadcast live TV to digital signage in meeting rooms, lobbies, plant floors, and team areas to make sure your important messages are heard loud and clear.

ENGAGE YOUR WORKFORCE LIKE NEVER BEFORE WITH VIDEO-INTEGRATED DIGITAL DISPLAYS
